

Kansas Enterprise Zone

The Kansas Enterprise Zone Program is designed to encourage businesses to create new jobs. Enterprise Zone incentives are available to qualified businesses throughout Kansas, based on the location of the facility, the type of facility (manufacturing, non-manufacturing, or retail), the capital investment made, and the number of jobs created. A sales tax exemption is available on materials, equipment, and services purchased when building, expanding, or renovating a business facility. State income tax credits are available for job creation and capital investment. Earned credits may be used to offset up to 100 percent of a company's annual state income tax liability.
